Special Things We Envision

Our Vision

The way things were done in the past is virtually over. Security concerns, the financial crisis and globalization have shifted the travelers priorities.

Add to this, the internet boom, and you have one smart customer who wants the right spot, the right climate and the right budget. We know this, and we act upon it.

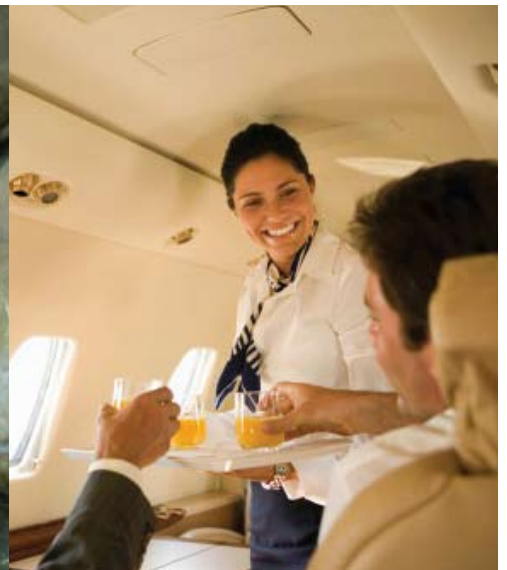

We hope to continue to listen to you and ask you what you are seeking, and maybe give you a few suggestions of our own. The result is your dream vacation, one that meets your needs to the finest detail. In other words, Travel Club brings you face to face with what you want, the way you want it.

Our aim is to offer our clients a complete tailor-made trip. We also aim to redefine "Group Travel" to a more shared experience, providing you with reasonably priced, high quality services you can enjoy with others while maintaining the trips uniqueness.

We do all this and a little more. Basic business travel and airline ticket reservations are taken care of, and we take our services to another level, modifying your trip your way to include a tour of classic ruins, a Pilgrimage, adventure treks, therapeutic treatments, eco-travel or bird watching and hiking trips, and maybe something a bit more relaxing, flower spotting.

We also know where the special sites are. The reason we know where to dig and where to set sail is because our young and energetic team has many years of experience in this rich country.
